FEATURES

Kuali Ready makes continuity planning more approachable with **in-product guidance** based on higher ed continuity planning best practices explaining what and why documenting or collecting specific information is needed to create a robust recovery strategy.

We collect information during the planning process enabling easy-to-generate **reports** to share with stakeholders, as well as providing transparency into your continuity plans and overall program.

Manage progress with the help of automatically generated **plan status indicators** throughout the planning process. With Kuali Ready, you can update plan status and confirm which plans are due for review or overdue, plus you can add detailed notes for clearer communication with your team. Update the plan for review or mark as overdue, and include detailed notes for reference and clear communication with your team.

Efficiently manage the planning process by creating **Action Items** to enable in-application collaboration and process management. Keep all pieces of the planning process in the same place for a streamlined experience.
